

## Baths - Overview

It's where the word bathroom came from, so it comes as no surprise that there are hundreds of baths to choose from. Nowadays baths come in a range of different sizes, shapes and even colours...

-

...although we recommend that you choose white baths and sanitary ware and add colour and individuality through flooring, tiles and accessories.

-

Standard white bathroom suites are very popular and you've probably noticed a range of high street suppliers offering you their latest 'unbeatable' deal for under £200 in the national press. Well, we don't like to boast - but our standard bathroom suite beats their offer and is cheaper at just £175 - the ideal solution for the DIY-er looking for a quick bathroom makeover; or the property developer or homeowner looking to sell their property. But if you spend just a little more, you can get a more hard wearing suite, a well designed and comfortably shaped tub, and often taps thrown in as well.

-

Double ended baths - however busy you are, we can all make time to enjoy a good soak in the bath and if you opt for a double ended bath - where the taps are located in the middle - you could share the experience with your partner...

-

P-shape baths are the ideal solution for people who want the convenience of a shower and a bath. The smooth and comforting lines of a P-Shape bath will give your bathroom that look of quality and enable you to shower in comfort and give you that extra space for a relaxing soak.

-

Slipper baths provide the ultimate in luxury and increasingly popular as the off-the-floor look gives the illusion of extra space in any size of room. For larger rooms they are the ideal focal point giving your bathroom that wow factor every day. Affordable luxury - brings fantasy and your dreams to life.

-

Jet baths, whirlpool baths & Jacuzzi baths come in all shapes and sizes and provide comforting massaging action through water that is pumped through an integrated jet system within the bath. Newer systems are quieter and easier to maintain than older models.
